CAREER OBJECTIVE:

Aspiring Python Developer with hands-on knowledge of **Python, Django, API development**, and **JavaScript**. Strong foundation in building scalable web applications and **RESTful APIs**. Seeking an entry-level role to apply technical skills, contribute to development projects, and grow within a dynamic software development team.

INTERNSHIP EXPERIENCE:

Data Analyst internship at Unified Mentor

01/2024 – 02/2024

- I applied data **collection, cleaning, and exploratory data analysis (EDA)** techniques to support organizational goals.
- I used **Python** and **Excel** to extract insights from datasets and created impactful visualizations with **Tableau**.
- I **optimized SQL queries and automated data workflows** to improve data processing efficiency and reporting accuracy.

PROJECT:

AI-Powered Video Language Translator System

11/2024 – 05/2025

Technologies: Python, MFCC, Wav2Vec 2.0, Seq2Seq, Griffin-Lim, Flask

[GitHub](#)

- Developed an AI system to translate English-language videos into Tamil speech using **MFCC, Wav2Vec 2.0, Seq2Seq**, and **Griffin-Lim vocoder**.
- Designed a complete 4-stage pipeline covering **audio extraction, speech to Text, Text to translation**, and **Text to Speech**, integrated into a **Flask web app**.
- Enables natural, real-time video translation with **85–90% accuracy** in speech recognition and translation, enhancing multilingual accessibility in educational and Entertainment.

Weather Prediction App

08/2024 – 9/2024

Technologies: Python, Django, HTML, CSS, OpenWeatherMap API

[GitHub](#)

- Developed a **Django web app** that provides real-time weather updates for user-entered cities using the **OpenWeatherMap API**.
- Created a clean, responsive user interface with **HTML, CSS** for easy city search and weather display.
- Integrated API calls with error handling to show current temperature, weather condition, humidity, and wind speed.
- Structured the app using reusable templates, static files, and clear URL routing for efficient maintenance.

SKILLS:

- **Programming Languages:** Python, JavaScript, HTML, CSS
- **Python Frameworks:** Django, API development with RESTful principles
- **Web Development:** Frontend skills in HTML, CSS, JavaScript for building responsive user interfaces
- **API Integration:** Experience consuming and building APIs efficiently

EDUCATION:

- **Bachelor of Technology (B.Tech) in Information Technology**

2021-2025

CSI College of Engineering

CGPA – 8.01

TRAINING / COURSES:

- **The Complete Python Pro Boot came** – Udemy
- **Python Programming with Project** – Infosys Spring Board
